EDUCATION

Beijing Language and Culture University

Sep 2019 - Jun 2022

Software Engineering Master

South China Normal University

Sep 2015 - Jun 2019

Physics Bachelor

RESEARCH INTERESTS

Self-supervised Learning, Automatic Speech Recognition, Computer-Assisted Pronunciation Training, Speech Comprehension, Multimodal analysis of Audio-Lexical content.

I am passionate about using cutting-edge ML technologies to boost the spoken Human-Computer Interaction system. A central focus of my current work is developing self-supervised neural networks to improve ASR related industry products, including ASR, CAPT. I also have an interest in analyses that lie in cross-language perception and production, e.g. the comprehension of L2 speech.

WORK EXPERIENCE

NetEase, YouDao

Apr 2022 - Present

full-time Artificial Intelligence Engineer.

Beijing

Develop, deploy and maintain multiple [speech industry products](#).

ByteDance AI-Lab

Nov 2020 - Feb 2021

Speech Technology Research intern.

SKILLS LIST

- Program Language: Python, C++, Shell
- Machine Learning framework: Tensorflow, Pytorch
- Speech Toolkits: Kaldi, Espnet, Fairseq, Speechbrain
